

PARCC Meeting Minutes

June 26, 2018

1:00pm - 3:00pm

Savanna Oaks Community Center - Columbus

Members Present: Paula Enger (PARCC/LCAT); Lindsay Patterson (PARCC/LCAT); Tawsif Anam (State Rep/Ron Johnson); Scott Klicko (Lodi PD); Tom Drury (Portage PFC); Stacy Davenport (Col Co HHS); Devin Jones (Wilz Hometown Pharmacy Intern); Amanda Riek (Public Defender); Josh Champion (Season's Counseling); Connie Champion (Tellurian); Clint Starks (Col Co HHS); Tiffany Loken (Lodi Schools); Dawn Woodard (CC HHS); Shannon Wojciechowski (DOC-Probation); Shannon Robinson (Seasons Counseling); Suzanne Luttinen (Alkermes); Aria Welsh-Felz (UW PHI)

1. Minutes from last meeting approved; Approval of revised Mission & Vision statements
2. Introductions & Updates from the group
 - a. Tom – first: from last meeting, go back to Co & gave update; Tom attended county finance meeting, asked to attend full board meeting – Stacy presented very nice update, Tom followed with thanking them for their support & cooperation with PARCC initiatives, and also gave overview of Drug Treatment Court; county board pleased with both presentations...second: Prevent Suicide meeting, discussion of booth at Col Co Fair & Tom asked if PARCC could share a booth – July 25-29, email will go out for volunteers to be at booth (for a couple hours per day). Paula – will need to figure out what this looks like, what hours would be that people need to be at booth, etc; Paula will contact Prevent Suicide & send out further information to the group.
 - b. Aria – evaluator for MAT/MATRS grant, looking at what makes program successful; bringing evaluation to community key stakeholders – looking to do Key Stakeholder Interviews & Community Survey, this is the first round of surveys; if interested in doing an interview, completely voluntary & can contact Aria to set up a time that works with your schedule.
 - c. Devin – set up tracking system for lock boxes/bags/Deterra for Portage & Lodi pharmacies: filling out how & why they got it, first name & 1 piece of info for follow-up purposes; people very receptive so far that have taken items – identified individuals for opiates/benzo prescriptions for these so far; 4-5 vivitrol injections so far in June, so this is gaining traction; OneOme/Pharmacoeaching – cheek swab, lets patients know how their body is metabolizing the Rx's they're on & if there are better options, used for a wide variety of disease meds – covered 100% by Medicaid, partially by some insurances.
 - d. Clint – moved to new building; Drug Court coordinator taking job with the state, so will have change in that position.

- e. Amanda – Attorney Troy Cross elected judge; August 18th – County having Open House party, with potential speakers from DNR, Mayor, Governor – tours of all the buildings, more info to come.
- f. Tawsif – Right to Try legislation passed, example of bipartisan work; 14 pieces of legislation recently introduced in Sen. Johnson's committee – more info to come; report out June 20th regarding Medicare & Medicaid re: better policing of where dollars are actually going/fraud & waste – passed around report for group to look over & send any thoughts to Sen. Johnson's office; committee hearing coming up to discuss logistics/accountability of this report; mobile office hours – had 23 people show up & also Sen. Johnson did Town Hall Meeting regarding the family separation controversy in the news lately.
- g. Josh – has 1 open spot at Sober Living House in Pardeeville; cycling people through, doing their best to help these individuals; stays vary from person to person, but generally short-term stays are overnight & longest close to 4 months.
- h. Connie – lots of changes at Tellurian, Chloe & Erin no longer in Col Co; Connie covering some of their workload; adjusting funding sources – Tellurian will just be providing services in Col Co; Day Treatment in Baraboo also takes Col Co residents – looking to split it up to women's & men's clinics; positions posted on Indeed currently – wanting substance use background specifically vs just mental health – looking for someone who is dual-licensed.
- i. Dawn – HHS moved into new building, which is very exciting minus minor issues, but more accessible to populations they serve; trying to get 3 LTE positions approved through county to take on MATRS program – took to finance committee last week; working on 2019 Budget – requesting 2 more positions for children impacted by opiate abuse issues, but have no budget increase for 2019; WI Act 262 changed qualification requirements for substance abuse counselors in WI, but this is still getting sorted out as Medicaid hasn't changed their expectations – other states didn't have as strict regulations (extra credentials), so this was limiting number of providers in WI. Lots of questions from group – Connie added that this is still getting figured out at the credentialing office in Madison & may take a couple of years to finalize this change process.
- j. Stacy – spoke at county board & gave a brief overview (they had 7 new members) of MATRS program, was nice to have Tom & the judge there to add additional information; Erin moved to La Clinica & Chloe moved to prison system – so CHHS working to figure out referrals, etc. Stacy also recently presented to CCS providers; ended contract with Tellurian, so crisis number will be changing & beginning July 1st, Sauk Co will warm transfer Col Co residents – met with Northwest staff to train on fielding these calls.
- k. Shannon R – Sober Apt a block away from Season's Building; 2-way check-in, not left out completely on an island; have hired new female therapeutic mentor & new male mentor; Thursdays at 5pm – free support group at Season's Building; near future plans – looking to expand for more apartment options coming open to provide female sober living & still potentially looking for a prescriber. Connie

added – women's sober living housing in Baraboo closing soon, so a big loss for female clientele.

- I. Shannon W – Dept of Corrections piloting new program to allow agents in community to provide Narcan: Col Co not a pilot site, but if staff attends training/provided Narcan they can use it, but hopefully in 2 years all sites will be set up & supported by DOC...very preliminary stages. Scott added important to encourage staff to do training for their own safety/protection. Connie suggested contacting Sauk Co PH for free training, as they have grant funds for these types of trainings; Stacy also met recently with ARCW rep & can potentially set up training in Col Co. Paula filling out grant that can support Narcan training & buying Narcan – will be available in the fall.
 - m. Scott – school safety grant money from state: have not received anything in Lodi yet; staffing has affected Lodi PD, with 3 new officers – Drug Court participants affected with change in team as well – what will we do to adjust if this is the trend? Scott thinks the drug use trend may show an uptick due to this as well.
 - n. Tiffany – wrote 1 year grant for mental health: goal to eliminate barriers to access to mental health resources for students; looking at mental wellness & universal screening for social-emotional health to catch younger students, etc; thankful that county was willing to partner with Lodi Schools on this, and amazed at how much better services kids get through Medicaid vs private insurance.
 - o. Paula – working on a few prevention grants right now: PFS grant (\$50,000) due mid-July, for education/lock boxes/DRE training, etc; moving forward rather than training more DREs, will use funds to get supplies; providing prescriber education dollars – how can we move forward with this? Stacy said good timing for this now, as a lot of prescribers need training hours right now – potentially lunch & learn event.
3. Next Meeting: Proposed to skip July meeting – agreed upon by group in attendance; next meeting will be August 28, 2018 in Portage - Roger Brandner will be at the next meeting to provide information on OD Mapping & Handle with Care action teams.
